Paul Ruth

Paul Ruth is an Assistant Director, Network Research and Infrastructure at the Renaissance Computing Institute (RENCI) at the University of North Carolina at Chapel Hill. He has been a member of RENCI's Network Research and Infrastructure Group for over 10 years. During this time, he has contributed to several large computer networking and cloud testbeds including, GENI, Chameleon, and FABRIC. He received his Ph.D. in Computer Science from Purdue University in 2007.   He currently leads the advanced networking efforts for Chameleon and is a member of the leadership team of FABRIC.
